

TOBACCO SETTLEMENT TRUST PROGRAMS

Tobacco Use Prevention

Who We Are:

Pottawatomie Alliance Toward Community Health (PATCH) is a group of passionate adults throughout Pottawatomie County that have come together to educate the community on the dangers and harmful effects of tobacco and other health related concerns. We are not against the smoker, but the lies and deceit of the big tobacco companies. We promote healthy choices and healthy lives. *Join us in restoring healthy living back into our communities.*

Our TSET Programs are expanding. We are covering more communities with our services; engaging more businesses with our Make it Your Business Health campaign; and, bringing in new programs focusing on Fitness and Nutrition. We will update you with these new initiatives very soon!!

When Do We Meet?

PATCH meets on the 1st Wednesday of every month at Noon. We gather at the Gateway APRC located in Shawnee on 1414 N. Kennedy Street. Lunch is provided.

What We Do:

PATCH focuses on changing social norms around tobacco throughout Pott County.

For Information about PATCH or Tobacco Cessation, please contact:

Amy Dunn

Director of Tobacco Prevention
Gateway to Prevention and Recovery
